## *E. Lee Garelick*

**DEGREE IN ELECTRICAL ENGINEERING, 1961**  
**1996 ENGINEERING DISTINGUISHED ALUMNUS**

Mr. Garelick began his career with a co-op at the University of Rochester Cyclotron Lab and Particle Physics Lab as a research assistant. After graduation, he joined Taylor Instruments as an account manager. In 1964, Mr. Garelick co-founded Transmation, Inc., which made solid-state product lines for the worldwide instrumentation market at that time. In 1979 he and another Distinguished Alumnus, James Wurtz, co-founded Altek Industries Corp, manufacturer of electronic calibration instruments. Mr. Garelick and his wife, Sharon, studied at the RIT Osher Center where he served as Chair of the Technology Committee.
